Note:1) *The crimping will be more secure if the total cross-sectional area of the wire is at least 0.5 mm².
 Examples: If the cross-sectional area of the wire is 0.3mm², fold the wire in two when crimping the terminal.
 If the cross-sectional area of the wire is 0.5mm², crimp the terminal onto the wire as it is.
 2) The part numbers indicated in the above table are for products with a brazed seam.
 When ordering products with a butted seam, add the prefix "WS" to the part number (ex. V2-4A → **VWS2-4A**).
 3) To order products with nylon insulation, change the "V" in the part number prefix to "N" (ex. V2-4A → **N2-4A**).
 Because nylon absorbs moisture, care must be taken concerning storage.
 4) Delivery lead times may vary depending on the product. Contact JST for details.
